SUMMARY

Passionate Software Engineer with experience building responsive and scalable web applications. Strong collaborator with a focus on clean code, performance, and user experience. Currently expanding expertise in backend technologies to grow as a Full-Stack Developer.

SKILLS

Languages: JavaScript, TypeScript
Frontend: React, Next.js, HTML, CSS, TailwindCSS
Backend: Node.js, Express.js
Database: MongoDB , SQL , PostgreSQl
Tools & Libraries : Axios, TanStack Query (React Query), Zod, Git, GitHub, Postman

WORK EXPERIENCE

Senior Front-End Engineer , Kohminds   **Feb 2024 - Jun 2025**

Contributed to the development of high-performance web applications with a focus on API integration and user experience. Recently led front-end efforts on **ClassPilot**, an AI-driven platform that assists teachers in creating lesson plans. Currently advancing backend skills to transition into a Full-Stack Developer role.
